### INSTRUCTIONAL BOOK

<b>"A POLISHERS HANDBOOK"</b>	
Book (204 pages) .....	49.50

### OTHER BITS YOU MAY FIND HANDY

**MOP BRUSH...** for use with shellac. For around \$24 you can purchase a 1" (25mm) Camelhair Artists Watercolour Mop, these should be available from almost any (half decent) art supplies shop in Australia

If you're feeling a bit flush you can buy a set of 3 French Oxhair Brushes from Gramercy Tools in New York (USA) 1", 2" & 3" in a set.

Cost from \$120 - \$180AU depending on the exchange rate at the time of purchase.

These are most excellent brushes and should last a couple of lifetimes.

### BEST RAG FOR POLISHING

#### **FLANNELETTE SHEETING:**

Brilliant for almost everything that needs to be waxed and the recommended cloth to use with Shellawax, Glow, Shellawax Cream, Aussie Oil, EEE-Ultra Shine, Traditional Wax, Sanding Sealer and more.

Best if purchased new from Spotlight or Lincraft by the metre and cut it into pieces around 150mmx150mm (6" square) size.

Ask your local St Vinnies or Salvo's thrift shop to save some for you.

Or pinch a sheet off the bed whilst the boss isn't looking at the end of winter.

The beauty of flannelette sheeting is that it has no discernible weave that will leave marks on the surface of the work like cotton, linen or paper towel, etc.
